Continuation of Substance of Interview including description of the general nature of what was agreed to if an agreement was reached, or any other comments:

Reference to claim 5 was used to discuss one of the two types of claims provided in this application. With reference to claim 5, Examiner indicated that the present claims do not require the "time indication" to actually show the time of the first message. Examiner indicated that including the following limitation into independent claim 5, would overcome the rejection since the idle icon does not display an actual time.

"the first time indication displaying the time that the first message was sent"

Applicant's representative agreed with these remarks.

Regarding the other type of claims, reference was made to claim 1. Examiner explained that claim 1 included extremely broad subject matter, as shown in the present rejection using only Admitted Prior Art. Applicant's representative also agreed with these remarks and indicated possible cancellation of these claims.
